

# 10MM SUPER SOIL

**Our Super Soil is a 70:30 blend of our quality, screened British Standard topsoil and Eco Mix soil improving compost.**

Easy to use and maintain, this product contains mature, peat free compost and is screened to a 10mm particle size.

The soil is tested in accordance to a BS:3882: 2015 standard and our Eco Mix is also accredited with a PAS100 standard certificate, ensuring that we pass on the best possible quality to our customers.

The product consists of topsoil enriched with matured peat-free compost made from composted botanical residues. Graded particles are no larger than 4mm with a substantial amount of organic fines; pH is around 7-8.5. The product is free of viable weed seeds and pathogens and has not been treated with any additives.

A copy of our test analysis is available upon request.

<b>Input materials:</b>	Biodegradable waste (plant matter & plant tissue waste)
<b>Particle Size Distribution:</b>	>90% passing a 4.0mm screen >75% passing a 2.0mm screen >50% passing a 1.0mm screen
<b>Bulk Density:</b>	950 – 1050 g/litre
<b>Moisture Content:</b>	20% m/m
<b>Dry Matter:</b>	80% m/m
<b>Organic Matter:</b>	(as loss recognition) 3 – 20% of the dry matter
<b>pH:</b>	7 – 8.5
<b>Electrical Conductivity:</b>	270µS/cm
<b>Purity:</b>	Substantially free of physical contaminants, viable weed seeds and pathogens
<b>Potentially Toxic Elements:</b>	Within acceptable limits (“Heavy Metals”)
<b>Certification:</b>	PAS100 & the Compost Quality Protocol, in which this quality compost was produced in compliance with the Compliance Quality Protocol

## User Benefits

- Improves moisture retention
- Nutrient-rich and an excellent source of organic matter, which helps plants to establish themselves quickly
- Easy to work with

## Restrictions

Our 10mm Super Soil is not designed for use as a top dressing or as a surface layer for playing fields.

Safe storage, handling, application & use of quality compost.

Information on good practice for use as compost as set out in Appendix F of the Compost Quality Protocol has been highlighted.
