

20MM PRIMARY SHINGLE

20mm Shingle is also cost effective driveway gravel and is a popular option for pathways and decorative stone areas.

Shingle is regarded as a highly attractive stone due to its rounded shape. As a result, the product is very popular for decorative purposes. Additionally, the shingle can also be used for constructive application as 20mm Primary Shingle is perfect for pipe-laying, soak-ways and is a component in 20mm Ballast.

If you are using shingle for gardening and pathway purposes and have cats/dogs, the 20mm shingle is also suited to you!

Size: Size: 20mm screened, washed shingle
Colour: Various, natural stones
