

40MM PLUM SLATE

Slate is a great finish for your garden or landscaping project that gives a quality, modern finish with minimal effort.

Plum slate can be used in many applications such as; Landscaping, rockeries, ponds and water features.

Quarried in North Wales and a by-product of Welsh slate roofing tiles, this rustic slate makes an excellent decorative stone.

Predominantly grey, it is a popular product and a great alternative to organic surfaces.

Colours can vary so samples are available upon request.

Main Uses:	Landscaping, rockeries, water features, mulch
Size:	15-40mm
Colour:	Plum
Shape:	Flat Angular
Rock Type:	Slate

User Benefits

- Can be mixed with other products for a striking cover pattern
- Decorative aesthetic will brighten up your garden borders and pathways
- A Multi-purpose product is suitable for pathways, bedding and weed suppression
- Distinct patterned aesthetic gives your landscaping project a quality finish
- Large particle size gives an even, yet distinct coverage
- Effective moisture retention and weed suppression
- Larger quantities may be required if you intend to walk on the newly laid surface, as plum slate is very active when agitated and does not easily compact
