

## Data Sheet

# Eco MultiPurpose

**Reduced-peat compost, Eco MultiPurpose is the perfect growing media for cuttings, rooting, planters and hanging baskets.**

PAS100 certified compost, recycled and sustainably produced from offcuts of local Dorset gardens, blended 50:50 with Peat.

Reliable, organic and a general all-rounder, our MultiPurpose compost gets the job done across the board. Perfect for all stages of plant growth, ensuring stronger plant development with more flowers and better vibrancy. A superb blend to give you the best results in hanging baskets and potted planters.

Use MultiPurpose for general plant growing, seed trays and potting on for optimum results. This is also an ideal compost for seeding grass and growing vegetables and herbs.

<b>Input materials:</b>	Biodegradable waste (plant matter & plant tissue waste)
<b>Particle Size Distribution:</b>	100% passing a 7.0mm screen >90% passing a 4.0mm screen >50% passing a 1.0mm screen
<b>Bulk Density:</b>	456g/litre
<b>Moisture Content:</b>	35% m/m
<b>Dry Matter:</b>	65% m/m
<b>Organic Matter:</b>	(as loss on ignition) 25% of the dry matter
<b>Carbon Nitrogen:</b>	12:1
<b>pH:</b>	6.5
<b>Electrical Conductivity:</b>	345 µS/cm
<b>Purity:</b>	Substantially free of physical contaminants, viable weed seeds and pathogens
<b>Potentially Toxic Elements:</b>	Within acceptable limits
<b>Certification:</b>	PAS100 & the Compost Quality Protocol, in which this quality compost was produced in compliance with the Compliance Quality Protocol

### User Benefits

- Improves moisture retention and soil structure
- Nutrient-rich and an excellent source of organic matter, which helps plants to establish quickly
- Easy to apply
- Requires little maintenance

### Restrictions

Our MultiPurpose compost is not designed for use as a medium for planting acid loving species (eg Rhododendron) or as a top dressing for turf.

Safe storage, handling, application & use of quality compost.
